COROUTE · **OPERATORS & PARTNERS**

Pre-Ride Safety Briefing

Ride: _____ **Date:** _____ **Start (IST):** _____ **Meet at:** _____

Lead (L): _____ **Sweeper (S):** _____ **Base / phone:** _____ **First aid kit:** _____

Riders and bikes

- ☐ Licence and bike papers carried
- ☐ Helmet (strap fastened), gloves, jacket, boots, rain gear
- ☐ Tyres, brakes, chain, lights, horn and mirrors checked
- ☐ Fuel enough for the first stop at _____ km
- ☐ Phone in a handlebar mount, charged or charging

In the CoRoute app

- ☐ Ride invite accepted (or joined with the code)
- ☐ Emergency contact set
- ☐ Medical info filled in: blood group, allergies, notes
- ☐ Pre-ride phone check passed (GPS, sensors, SOS, battery)
- ☐ L and S visible on the map
- ☐ Intercom tested once

Plan

- **Route:** _____
- **Regroup points:** _____
- **Fuel / breaks at:** _____
- **Group speed limit:** _____ km/h · **Spread alert:** _____ km
- No overtaking the lead · staggered formation · _____ m gap
- Quick replies: **Fuel · Break · Wait for me · I'm OK · Slow down · Regroup here · On my way · Arrived**. Type only when stopped.

If something goes wrong

1. **Crash:** your phone counts down 30 s. Tap **I'm OK** if you are fine; if you do not answer, the SOS goes out by itself.
2. **Need help: hold SOS for 1.5 s.** The group, the lead, the sweeper and your emergency contact are alerted, with a live link.
3. **Someone hurt:** make the scene safe and **CALL 112** (ambulance 108). Do not move the rider unless there is danger. Do not remove the helmet unless trained.
4. **Siren:** keep left and give way. Never stop in the carriageway or on a blind bend.
5. **Left behind or stopped:** answer "Are you OK?" on your phone, or tap **Wait for me**.

During an open SOS, the organiser can see your emergency contact, your phone and your medical info, to help you. This view is recorded. At other times they see only your username, first name and, during the ride, your position.

Briefing given by: _____ **Signature:** _____ **Riders present:** _____ / _____
